

# EXQUISITE KNOWING

KNOW IT. APPLY IT. SUSTAIN IT. EXPLORE...

## For unique kids & their families...

- Does your student possess exceptional intellectual or creative capacities?
- Do regular school and social settings fail to match their vision and abilities?
- Do you struggle to keep up with and support your child in all the ways you think you might? Do you sometimes clash?

Exceptional's not always easy. Many kids experience potential-squelching alienation and limit themselves to fit in, leading to conflicts with self, siblings, parents, peers, and systems—especially as they approach adolescence. Unique kids need unique support to thrive. I offer it.

Inspired by your child's exceptional talents, capacity, and wisdom, I create special tools and collaborate one-on-one to help them maximize their potential. I also support developing executive functioning, communication, and translation skills so others appreciate their unique gifts.

When unique kids thrive authentically, they grow into fully realized adults. That's good for them and the world.

It's niche work, and I keep a very small client list to serve each family fully. Partnerships tend to be long-term. A few slots are opening up this year, and I'm interviewing now.

Curious? Let's chat about possibilities. I can't wait to meet you! —Ashley

- 
- Ages 10+
  - Targeted & long-term bespoke support
  - Student-focused & systems-aware
  - Elite college admissions & enrollments
-
